Summary

Passionate software developer with a bachelor's degree in computer science and proven professional experience delivering web applications for real clients. Skilled in React, JavaScript, TypeScript, Node.js, and PostgreSQL, with a track record of writing clean, well-tested code using TDD and shipping features end-to-end. Backed by intensive full-stack training and daily use of AI-assisted development tools, including Cursor and Claude. A fast learner who takes real ownership, works well alongside senior engineers, and is ready to contribute to production systems from day one.

Skills

- **Languages & Frontend:** JavaScript (ES6+), TypeScript, HTML5, CSS3, React, Vite, Bootstrap, GSAP, Responsive UI
 - **Backend & Databases:** Node.js, Express.js, PostgreSQL, Supabase, Firebase, REST APIs
 - **CMS:** WordPress, Divi Builder, CMS Development, Theme & Plugin Configuration
 - **Testing & Quality:** Jest, Playwright, TDD, Unit, Integration & E2E Testing, Cross-Browser Testing, Debugging
 - **SEO & Performance:** SEO, Performance Optimisation, Accessibility, Core Web Vitals
 - **Version Control & CI/CD:** Git, GitHub, Branching, Pull Requests, Netlify, CI/CD
 - **Development Tools:** VS Code, Linux, Jira, Git Bash, AI-Assisted Development
 - **Software Engineering:** OOP, RESTful Architecture, Modular & Maintainable Code
 - **Agile & Collaboration:** Scrum, Sprint Planning, Code Reviews, Pair Programming
 - **AI Tools:** Claude, Cursor, ChatGPT, GitHub Copilot
 - **Problem Solving:** Strong analytical and debugging skills, able to reason through solutions clearly
-

Projects

DreamFest (Festival Simulator) - Tech: React, TypeScript, Vite, Jest

- Built a React-based festival simulation application with event planning, attendance forecasting, and financial analysis features, including revenue, CAPEX, OPEX, and profit calculations.
- Developed a modular architecture with localStorage persistence and unit-tested core functionality for reliability and maintainability.

Event Paradise - Tech: React, TypeScript, Node.js, Express, PostgreSQL, Stripe, Supabase

- Developed a full-stack events platform where users can create, browse, and register for events with secure authentication and real-time updates
 - Integrated Stripe payments, Google Calendar, and role-based access to streamline event booking and management
 - Designed and deployed a responsive frontend with dynamic data fetching and RESTful APIs for smooth user interaction
-

Experience

Web Developer | Policy Centre for African Peoples (PCAP) Jun 2026 – Present

- Developed and redesigned CMS-based website pages for PCAP, creating responsive layouts and customising key components including navigation, headers, sliders, and content sections.
- Collaborated with the team to implement website requirements, maintain and improve the site, and resolve layout and functionality issues to enhance the overall user experience.

SEO Specialist (Intern) | Hendrik Thureau Enterprises Jun 2024 – Aug 2024

- Optimized website performance with SEO improvements that helped achieve a top-3 Google ranking within three months
- Collaborated with content and development teams on website optimization, demonstrating strong interpersonal and problem-solving skills

Front End Developer | Max Group Technology May 2021 – Jan 2023

- Developed 100+ responsive websites and web applications using React, JavaScript, HTML, CSS and Bootstrap, translating designs into pixel-perfect, cross-browser interfaces.
- Built reusable React components, interactive features and API-driven functionality to create responsive and user-friendly web applications.
- Collaborated with clients and developers to gather requirements, troubleshoot technical issues and deliver high-quality solutions on time.

Front End Developer (Intern) | ERS Technology Dec 2019 – May 2020

- Converted PSDs into responsive websites using HTML, CSS, and JavaScript; conducted cross-browser testing to reduce post-deployment errors
- Assisted in Agile sprints for front-end development, supporting deployment tasks, and demonstrating team collaboration and adaptability

Education

Software Developer | Northcoders Bootcamp Mar 2025 - Jun 2025

- Built multiple full-stack projects using React, Node.js, Express, and PostgreSQL
- Designed and integrated REST APIs with front-end applications to build fully functional web apps.
- Applied Test-Driven Development with Jest and collaborated in Agile teams using Git & GitHub

Front-End Web Developer | EdX Bootcamp Sept 2023 – Feb 2024

- Learned JavaScript in depth, along with jQuery and front-end development principles
- Built front-end projects integrating multiple external APIs (TripAdvisor, Google Location)
- Developed responsive, interactive web applications using HTML, CSS, and Bootstrap

Bachelor of Science in Computer Science (BSCS) (Honors) | University of Gujrat (Lahore Campus, Pakistan) Oct 2015 – Sept 2019

- Gained a strong foundation in programming, algorithms, databases, and software development
- Final-year project: Developed a 3D racing game in Unity using C#.

Hobbies & Interests

- Chess, Sudoku, Snooker
